

“Creating Global heads with hearts”

PLANNER OF THE MONTH- JULY

SESSION- 2018-19

CLASS- KINDERGARTEN

WELCOME STUDENTS

GENERAL AWARENESS ON Eco Friendly Society (Social Awareness)

Youtube story: Family Education Series - Being Eco-Friendly

https://www.youtube.com/watch?v=jGstnZ_hbws

Everyone plays an important part in keeping the environment clean and safe.

Let's read about some of the environment-friendly technologies:

- **Organic Waste Converter:** With the help of this converter we can recycle organics for compost something that gardeners, farmers, and landscapers will be able to use in order to grow things.
- **Tree Plantation:** One of the best ways to contribute in creating an Eco friendly environment is to plant more and more trees. As we all know, trees are of great significance. Planting a tree can not only reduce the amount of carbon dioxide in the air, but can also provide shade for our homes.
- **Save Power:** Use fluorescent bulbs and tubes. They use about a quarter of electricity used by ordinary bulbs and they last longer. Switch off all fans and lights when you leave the room. Use LED bulbs. They use less electricity than both CFL and incandescent bulbs.
- **Conserve Water:** Turn off the water tap while brushing your teeth. Use bucket instead of shower while taking bath.
- **Conserve Energy:** Use solar energy to dry your clothes. Try solar water heaters, solar cookers, solar cells etc.
- **Carpooling:** Carpooling (also known as car-sharing and ride-sharing). In addition to reducing the number of cars on the road, carpooling decreases pollution and the need for parking space, and in a global perspective, reduces greenhouse gas emissions. Shared driving carpooling can also reduce driving stress.

Project of the month – Save Water Campaign

<https://www.youtube.com/watch?v=2NpwtOcmjE8>

We are all aware that **Water** is one of most important element on this earth.

Plants, animals and humans would not have survived without this precious

natural resource. From morning till we go to bed we use water for so many

purposes. We brush our teeth, take bath, cook food, wash our clothes & utensils,

wash our vehicles, water the plants and drink it whenever we are thirsty.

- Whenever you wash your hands, don't leave the water running.
- Implement rainwater harvesting systems to collect rain water and use it in future.

- Wash vegetables and fruits in bowl rather than washing them under tap.
- Stop leakage of water from taps. Around 30 litres of water is wasted by a slow dripping tap in 24 hours.
- **PEER INTERACTION**
- Water is the source of life.
- We should not pollute the rivers and lakes.
- Turn off the lights, fans and A.C when you're not using them.
- Watch less Television – read a book instead!

ACADEMICS OF THE MONTH

SUBJECTS	<u>JULY (WRITTEN/ORAL)</u>
ENGLISH	<ul style="list-style-type: none"> • Recapitulation of 'a' vowel word • Introduction of 'e' vowel word
MATHS	<ul style="list-style-type: none"> • Introduction of numbers 61 to 70 • Before , after and between numbers • Bigger and smaller numbers
HINDI	<ul style="list-style-type: none"> • Recapitulation of vyanjan k saO D^o • Introduction of vyanjan ca _ ja ज्ञ ज
EVS	<ul style="list-style-type: none"> • My World and I
<u>STORIES AND RHYMES</u>	<ul style="list-style-type: none"> • The Honest Woodcutter • Rhyme- Moo Moo says The Cow

ACTIVITES OF THE MONTH

CHEF DAY (FRUIT CHAAT MAKING)	11 JULY 2018
SPLASH POOL (NURSERY LOTUS AND KG ACACIA)	16 JULY 2018
SPLASH POOL (NURSERY LILY AND KG DAISY)	17 JULY 2018
SPLASH POOL (NURSERY BROWNEA AND KG ROSE)	18 JULY 2018
SPLASH POOL (NURSERY JASMINE AND KG DAFFODIL)	19 JULY 2018
SPLASH POOL (KG ORCHID)	20 JULY 2018
SHOW AND TELL COMPETITION (SAVE WATER)	24 JULY 2018
BIRTHDAY CELEBRATION	31 JULY 2018
