## Project of the month- save paper

1. Turn old paper products into crafts. There are plenty of crafts that require paper, so instead of using fresh sheets, old paper can be used.
2. Recycle paper you can't reuse. When you do have paper that you can't reuse, make sure you recycle it instead of throwing it in the trash.
3. Reuse gift bags, wrapping paper, newspaper, and tissue. Everybody loves a well-wrapped gift, but that doesn't mean you have to use brand new wrapping paper for every gift you give.
4. Use both sides of a piece of paper. When you do have to print or write things down on paper, make sure you get the most out of that paper by writing on both sides.
5. Buy recycled paper products. There are paper products available that are made with recycled paper, which means that no new trees were cut down to make those products.
6. Use reusable grocery and lunch bags. Many grocery stores provide paper bags to pack groceries. You can help your family save paper by investing in reusable grocery bags.
