# Principal's Message

Dear Children,

***“Children must be taught how to think, not what to think”***

-Margaret Mead

# EARTHQUAKE DRILL

Natural hazards like earthquake can cause major damage to our lives and property but as it said 'Prevention is better than cure' therefore, DIS ensured that the children virtually undergo an Earthquake drill to prepare them towards any untoward incident . Such drills are very important because they teach students how to respond to the urgency of a real-life situation like an earthquake.

It was amazing to witness how well the children participated in the drill and vigilantly followed the instructions given by the teachers.

# CLASS ASSEMBLY- GRADE I

During this pandemic times, we have used technology at its best for studies. Students of class I A and I B chose this as a theme of their special class assembly. Team DIS is thankful to our dear parents for sparing out their valuable time to grace the occasion with their benign presence and for motivating students.

## CLASS ASSEMBLY CONT.- GRADE 2

Patience is one of the most valuable virtues of life. The power of patience helps us empower our lives leading to wisdom and success. Keeping this in mind, the students of grade II C and II D presented a special Class Assembly on the theme “Patience” in the presence of our school dignitaries, teachers and the lovely parents of our dear students.

## FAREWELL TO BATCH 2021-22

Farewell is the only day in both a student's and teacher's life when they are happy and sad at the same time. It is the end of a student life but not the end of the bond that they share with each other and the teachers. All the lovely juniors came up with beautiful events like dance, stand-up comedy and what not for their loving seniors when DIS organised a farewell party for their 12thies. Every student looked absolutely stunning in the sarees and that made all the teachers even more difficult to say goodbye to their dear students. They let go of all the shyness and enjoyed the event to the fullest.
