

Quality Policy

A quality policy for a school outlines its commitment to providing high standards of education, fostering an environment conducive to learning, and ensuring the well-being of its students.

At Delhi International School Dwarka Sector 23, we are dedicated to excellence in education and the holistic development of our students, thereby **'creating global heads with hearts'**. Our commitment to quality is reflected in our policies, practices, and interactions within the school community. We strive to:

1. **Deliver Exceptional Education:** We are committed to providing an enriching and challenging academic curriculum that nurtures critical thinking, creativity, and lifelong learning skills. We have walked up to the path of conducting sessions through **'Active Learning Strategies'**. These sessions are more engaging and immersive in which the students take the onus of their own learning. Few examples of active learning strategies are: KWL, Round Robin, Snowballing, Jigsaw, Group discussion, 1,2,3, Exit slips and many more.

2. **Foster a Safe and Supportive Environment:** The safety, well-being, and dignity of every member of our school community are paramount. We maintain a safe, inclusive, and respectful environment where diversity is celebrated, and all individuals are valued. We provide a secure environment where **'I/You'** are respected and celebrated.

3. **Promote Continuous Improvement:** We embrace a culture of continuous improvement, seeking feedback from all stakeholders and using it to enhance our programs, services, and processes. For students we provide **'Support Classes'** to bridge the learning gaps and respect that each child is an individual to learn at his/her own pace. We also encourage teachers for **'CPD'** to enhance their skills and be better prepared to cater to the needs of our learners.

4. **Working in close Partnership with Parents and Guardian:** We recognize the importance of partnership between the school and parents/guardians in the educational journey of our students. We actively involve parents/guardians in their child's education and welcome their collaboration and feedback. We are a family that is together in celebrations and achievements.

5. **Embrace Ethical and Responsible Behaviour:** Integrity, honesty, and ethical conduct are fundamental values upheld by all members of our school community. We instil these values in our students and uphold them in our own actions.

6. **Contribute to the Community:** We are committed to being responsible and contributing members of the broader community. Through service-learning initiatives and partnerships, we encourage our students to make a positive impact on society.

This quality policy is the foundation of our school's mission and guides our efforts to provide an outstanding educational experience for every student.
